

CONCRETE SCARIFIERS

- ✓ **HOPPT®** Concrete Scarifiers are *designed for the planing and levelling works on concrete surfaces.*
- ✓ You are able to select from three engines and electric motor options.

Powered by :  **SUBARU**  **HONDA**  **TECO**
Robin Industrial Products **ENGINES** 東元家電

- ✓ **HOPPT® SPM-1** Concrete Scarifier are used for the breaking up of land surface deposits faster and more aggressively than others. With the use of the pummeling action of Tungsten-Carbide Cutters, with either 5-point and 6-point, that rotate at high speed, it is faster to chip away at the concrete surface.
- ✓ **Select 6-Point** Tungsten Carbide Cutters for **An Even Better Efficiency.**

SPM-1

| MODEL | SPM-1 | SPM-2 |
|------------------------------------|---|--|
| MACHINE DIMENSION – L x W x H (mm) | 900 × 420 × 1,110 | 1,465 × 585 × 965 |
| OPERATING WEIGHT – (kg) | 66 | 195 |
| MAXIMUM CUTTING DEPTH – (mm) | 3 | 8 |
| WORKING WIDTH – (mm) | 203 | 290 |
| ENGINE OPTIONS | ROBIN® EX17 @ 4.2kW (6.0hp) 4-Stroke Petrol | HONDA® GX390 @ 8.7kW (11.7hp) 4-Stroke Gasoline |
| | ROBIN® EY20-3C @ 3.7kW (5.0hp) 4-Stroke Petrol | |
| | HONDA® GX160 @ 3.6kW (4.8hp) 4-Stroke Gasoline | |
| POWER SOURCE | TECO®-AEEF Electric Motor 110/220V @ 1.5kW (2.0hp) | - |

FEATURING HIGH-QUALITY COMPONENTS & FEATURES

Engine Options and Electric Motors for Your Selection

- ✓ Tungsten-Carbide Cutters for Long-Lasting and Fast Milling of Concrete, Asphalt or Coatings (Available in 5 or 6-Point Options)
- ✓ 6-Point Tungsten-Carbide Cutters would Mill Faster

Vacuum Outlet for the Insertion of Vacuum Hose from Industrial Vacuum Cleaner to Suck Out Debris, Thus Keeping Work Area Clean While Working

CUTTING AND GRINDING EQUIPMENT
